Summary

Enthusiastic MERN Stack Developer skilled in building responsive full-stack web applications using modern technologies. Eager to contribute to real-world projects and grow in a dynamic development environment.

Education

NIMS University, Jaipur, Rajasthan

2022-2026

Computer Science Engineering: CGPA: 7.2/10

L.C.S. College Darbhanga ,Bihar

2020

XII BSEB Board

Mithila High School Asthua , Darbhanga, Bihar

2018

X BSEB Board

Skills

Language: Python, JavaScript, TypeScript

Frontend : React.js, HTML5, CSS3, JavaScript (ES6+)

Backend & Frameworks : Next.js, Node.js, Express.js

Database: MongoDB

Cloud Platform: AWS

Version Control: Git, GitHub

Work Experience

MERN Stack Developer — Inglu Official Website: *Jan. 2026 - March 2026* [LIVE](#)

[INGLU](#)

- Developed and refined responsive UI components, focusing on improving usability, performance, and overall user experience across the application.
- Integrated REST APIs and ensured smooth data flow between frontend and backend, handling state and dynamic data efficiently.
- Wrote reusable and clean code, while actively contributing to debugging, deployment, and optimizing performance for a stable production environment.

Projects

College Connect Web Platform : Next.js, TypeScript, MongoDB, Node.js

[College-Connect](#)

- Built a full-stack web platform to streamline communication between students and faculty, including announcements, event updates, and interaction features.
- Developed a clean and responsive UI using modern web technologies, making sure it works smoothly across mobile and desktop devices.
- Added secure authentication and dashboard functionality, along with real-time data handling to make the system practical for real college use.

Portfolio Website with Integrated Mini-Games: React.js, TypeScript, Tailwind CSS | [LIVE](#)

[Portfolio](#)

- Developed a modern full-stack portfolio using React, TypeScript, and Tailwind CSS, focusing on performance, clean UI/UX, and responsive design across all devices.
- Built interactive features including mini-games like Tic Tac Toe (with AI) and Memory Game using efficient state management and smooth animations.
- Deployed the application on Netlify with custom domain setup, optimizing performance and ensuring fast load times and scalability.

Fanta-Animation-web-page: HTML, CSS, JavaScript, GSAP | [Landing-Page](#)

- Designed and developed interactive, responsive web pages using HTML, CSS, and JavaScript, ensuring smooth user experience across devices.
- Implemented advanced animations and transitions using GSAP, enhancing visual engagement and improving overall UI performance.

Certificates

- Learn React – [Scrimba](#) , Learn Express – [Scrimba](#) , Learn Express – [Scrimba](#), Learn Next.js – [Scrimba](#), Learn Typescript – [Scrimba](#)
